

Service Note		
Product	Description:	Service note no.
DB-4	Upgrade fra DB-4 til DB-8	712 10 T012

IMPORTANT:

Modification should only be carried out by authorized technicians.

Description: DB-4 includes the same processing and I/O capabilities as DB-8, except for holding two separate processors, instead of the four inside DB-8. For example, one DB-4 can apply different processing to four mono, two stereo or two 5.1 signals, or to a combination such as one stereo and one 5.1 signal. DB-8 has 8 ch. AES/EBU in/out balanced or on BNC but the DB-4 4 channels.

Modification:
