

Note		
Products	Description:	Date
P13003-3	Missing schematic	08-12-2011

Reason for note:

A schematic for the P13003-3 board does not exist.

But the P13003-3 board is exactly as the P13001-4 schematic just with the RAM circuit on board instead of placed on a separate PCB connected via the J13 connector.

So for trouble shooting please just use the P13001-4 schematic
