

Some units have been shipped in “locked mode” When in locked mode it is not possible to change the EQ or X over settings. Once unlocked, it will NOT accidentally fall back to locked mode.

This video, will guide you in how to unlock the IPD:
<http://www.youtube.com/watch?v=taCj1ADa4u4&feature=youtu.be>

It can also be unlocked through the front panel: Menu > Device config > Unlock > Unlock Unit > Enter password: “Password” (When “Enter Password” appears – do NOT push encoder as it will make a ”space” resulting in wrong password.

Please also note that more tutorial videos can be found here:
