

Service Note		
Product	Description:	Service note no.
All Manhattan Products + M300	Serrated washer on earth connections.	722 10 1808

IMPORTANT:

Modification should only be carried out by authorized technicians.

The serial number range is: From production date 01-06-2004

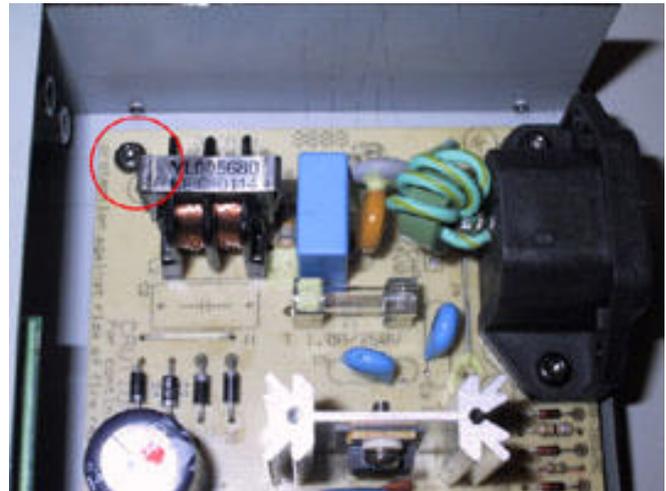

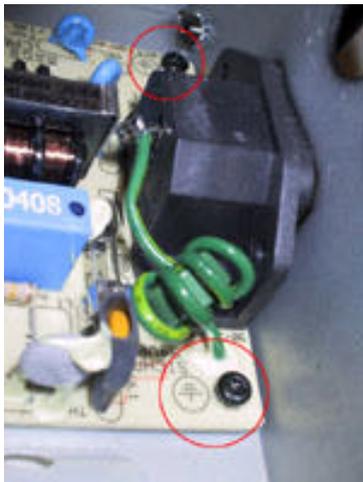

Symptoms: A serrated washer (star washer) must be mounted on the GND connections on all products using PSU type no. JKS020Q1 (Manhattans and Voice Live) and JKS020Q2 (M300).

The washer must be included in future products using same power supplies as well.

Remedy: The washer must be mounted according to the photos below:

JKS020Q1 (Manhattan and Voice Live)

JKS020Q2 (M300)

IMPORTANT:

This replacement should only be carried out by skilled technicians.

This is to be implemented **immediately!**
